

First visit only

Walk around springboard building up to the compound but do not enter

Stay in family groups and clear of the gates.

If equipment is needed a committee member will get a wetsuit, cag, buoyancy aid, Helmet and nylon spray deck from the container.

Try on the equipment.
If anything does not fit please inform the committee member and hang the equipment on the rail.

You will be responsible for this equipment until the end of the season. Please rinse it off at home after use and look after it. Please bring it with you to every session.

If anything is damaged please let a committee member know at the start of the next session.

All Visits

Walk around springboard building up to the compound but do not enter

Stay in family groups and clear of the gates.

If a Kayak is needed a coach/committee member will escort the member into the compound. The member can remove the boat from the container. Only 1 person can enter the container at a time.

You will be responsible for the Kayak until the end of the session

Note: Hands must be sanitised with your own sanitiser before and after entering the water. Persons not bringing sanitiser will not be allowed on the water

Boat launching

Take your Kayak to the lake and place it on the grass next to the launch area. Be sure not to block the pathway. Keep 2M distance

Wait for the Instructor to be ready and in attendance. Do not get on the water until the Instructor tells you.

The instructor will tell you when to get onto the water one family group at a time.

Once on the lake move to a clear space near the launch area. Do not block the launch area.

Any Family members supporting the launch must now move away from the launch area.

Boat landing

The instructor will tell you when to get out of the water.

Family members can move to the launch/landing area when instructed. Only one group at a time

Exit the water and move the Kayak to the grass area.

Take the Kayak back to the compound gate again Do Not enter the compound

Inform the committee member you are finished with the kayak and step away min 2M.

The committee member will rinse the kayak and return it to the container. The boat will not be used again for a min of 72 Hrs.
